THE NATION'S DEAD

With Full Honors of War 336 Are Buried at Arlington Cemetery.

M'KINLEY AND GEN. MILES

Together With Cabinet and Other High Dignitaries Attend the Ceremonies—Fifteen Thousand Citizens Present to Do Honor to the Fallen Heroes—Farewell Salute and Taps.

Washington, April 7.—With full honors of war upon the crest of the southern slope of Arlington cemetery yesterday afternoon, the nation, represented by President McKinley, his cabinet and other high dignitaries of the government, the commanding general of the army and other distinguished officers, all the regular and militia organizations of the district and a vast concourse of 15,000 people, paid the last tender tribute of honor and respect to the bodies of 336 officers and men who gave their lives on distant battlefields for their country during the Spanish-American war and who were yesterday interred in the silent army that sleeps in the last bivouac of the brave.

The spot selected is in the new addition to the cemetery, looking out upon the broad sweeping Potomac and across to where the gleaming Washington monument rears its dizzy shaft, and beyond to the classic outlines of the capitol and the burnished dome of the new library building. To the right rise the ramparts of old Fort McPherson, to the left the countless graves of heroes of the civil war, sprinkled with imposing monuments to distinguished generals, and to the rear the stately old Lee mansion and Fort Myer. In this burial lot, which covered two acres in extent, in parallel rows, the wooden boxes containing the caskets were ranged, separated by great mounds of earth. Over each box an American flag was draped.

There was no particular order in the disposition of the remains, though an exception was made in the case of the officers. The boxes containing the bodies of Captain Edgar Hubert of the Eighth United States infantry; Lieutenant L. I. Barnett, Ninth United States infantry; Lieutenant William Wood, Twelfth United States infantry; Lieutenant R. S. Turman, Sixth United States infantry, and Lieutenant Francis Croighton, United States volunteer signal corps, were placed at the head of the line of graves, immediately under the eye of the presidential party. Of the others, fully 70 per cent are identified. About 30 per cent are wholly unknown, or known only by the regiment to which they belonged.

Long before the arrival of the military thousands of people had surrounded the inclosure where the dead soldiers lay. Some sought vantage points in trees or on the ramparts of old Fort McPherson. About 2:30 the presidential party reached the enclosure. They were followed by General Miles and his staff, the military attaches of the British and German embassies, all mounted, and the military escort.

As they arrived the solemn strains of the dead march in Saul silenced the vast assemblage, and with bowed heads the crowds stood at the graveside while the presidential party advanced and the military dispositions were made.

Just as the president arrived a pathetic incident occurred, when aged Mr. and Mrs. O'Dowd pressed through the lines and placed a bunch of roses on the casket of their son, John O'Dowd of the Seventh infantry. The parents of Lieutenant Wood also came forward and deposited a beautiful wreath of flowers. The sword of that gallant officer was upon his casket. Immediately the band broke out in the sweet strains of "Nearer My God to Thee," and Post Chaplain C.

HYPNOTISM

Some men are said to possess such wonderful animal magnetism that they can put other persons to sleep by passing the hands before the eyes. This is called hypnotism—an influence about which very little is known—and it is not a difficult matter to find a few people who have been put to sleep in this manner. You can find hundreds and thousands of women, however, whose sleep has been made peaceful and restful by Dr. Pierce's Favorite Prescription. It soothes the nerves by curing the disorders commonly called "female troubles." It is induced by an army of women in every State in the Union, who have been brought back to health after suffering untold misery from disintegrable drains upon the system, irregularities, prolapsus, backache, "bearing-down" pains, nervousness, despondency and hysteria. "Favorite Prescription" is a vegetable medicine, and contains no alcoholic stimulant or dangerous narcotic to create morbid cravings. Its action is confined altogether to the distinctly feminine organism, which it heals, soothes and strengthens. It helps to make existence pleasant before baby comes, and on the occasion of the little one's advent, danger is avoided and the pain reduced to almost nothing.

Mrs. Anna Willy, (Michigan House), of Northville, Spink Co., S. Dak., writes: "I am enjoying good health, thanks to your kind advice and valuable remedy. I suffered very much with female weakness and other ailments for more than two years, when I wrote to you for advice. After carefully following your advice and taking six bottles each of Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' I am now a well and happy woman. I have also taken several vials of your 'Pleasant Pellets' which did me a great deal of good."

Accept no substitute, which a dishonest dealer may urge as "just as good" as "Golden Medical Discovery." Send 21 one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., for his Common Sense Medical Adviser, a great doctor book by a great physician. Each bound in attractive leather.

J. STEVEN'S ARMS AND TOOL CO., CHICOPEE FALLS, MASS.

W. Freeland of Fort Monroe, in the ecclesiastical robes of his office, with Rev. Father McGee of St. Patrick's church, followed by three purple-gowned acolytes, advanced to the graves and the funeral services began. They were very simple, but very impressive.

As soon as the religious services had been concluded flanking detachments of the Fourth and Fifth artillery fired three earshaking, soul uplifting volleys, and in the solemn hush that followed the salute the bugle sounded "taps." The last religious and military rites to the dead heroes were over, and the presidential party and the military departed, leaving the work of actual interment to follow.

UNDER HURRY ORDERS

Detroit Ordered to Bluefields to Protect American Interests.

Washington, April 7.—The cruiser Detroit, which is now lying off La Guayra, Venezuela, has been ordered post haste to Bluefields, Nicaragua, for the protection of American interest. She will touch at Port Liman, Costa Rica, on the way, where her commander will put himself in communication with the United States consul at that point and where he also may receive further instruction. She is also likely to make a very brief stop at Greytown. Her dispatch, under hurry order, is at the urgent request of the state department, to which American residents both at Bluefields and in Costa Rica have appealed for protection of American interest.

The arbitrary and extortionate policy adopted by General Torres at Bluefields, who on more than one occasion has made himself persona non grata to this government, and whose restoration to power has been followed by acts which American residents resent and condemn against, is the main cause of the vessel's dispatch. The state department at the same time has cabled instructions to the United States diplomatic representative at Bluefields to lodge an energetic protest with the Nicaraguan government against the action of General Torres, and a disregard of this protest will be followed up by a more positive step on the part of this government. In Costa Rica the American business interests and residents are in trouble as a result of a revolution movement. It is understood that insurgents are levying forced loans on them and double duties on imports.

DISARMAMENT CONGRESS.

United States Delegates Announced by the State Department.

Washington, April 7.—The United States' delegation to the disarmament congress called by the czar of Russia was announced yesterday by Secretary of State Hay. They are Ambassador White, now at the Berlin court; President Seth Low of Columbia University, New York; Captain Crosier, U. S. A., and Captain A. T. Mahan, U. S. N., re-

tired. Frederick Holls of New York was also appointed secretary of the commission.

The American commission as a whole is regarded as an exceptionally strong body, being made up of men well known not only in public and political life, but in the world of letters and international affairs. They are all men of scholarship, fine linguists and those attainments helpful in a congress representing the nations of the world, conducted under the diplomatic usage which makes French the accepted language. The meeting will take place at The Hague.

No Cause For Mystery.

Washington, April 7.—It is said at the navy department that there is no reason why any mystery should attach to the movements of the cruiser Montgomery, now fitting out for a long cruise at the Norfolk navyyard. It is the intention to send her to the South Atlantic station. One small gunboat (the Wilmington) now on her way up the Amazon, is the sole representative of the United States naval forces on the station, and it is deemed prudent to supplement her with the Montgomery, inasmuch as the flagship of the station (the Chicago) will not arrive there for at least four months.

Invited the President.

Washington, April 7.—A large delegation of prominent citizens of New Orleans, headed by Senator Caffery and Representatives Meyer and Davey, called at the white house yesterday and invited the president to visit New Orleans on the occasion of the peace jubilee on May 8. The president informed the committee that it would be impossible to accept their invitation owing to the press of public business.

Mr. and Mrs. Sherman.

Washington, April 7.—Ex-Secretary Sherman has now so far recovered from his recent attack of pneumonia that he is able to be with his house. The condition of Mrs. Sherman has also improved to the degree that she is able to walk.

A. M. Clapp Seriously Ill.

Washington, April 7.—A. M. Clapp, formerly public printer, is very ill at his residence in this city and is not expected to recover. Mr. Clapp is about 80 years L.

GEN. MAXIMO GOMEZ

Will Again Take Up His Programme of Solidifying the Cubans.

ABSOLUTE INDEPENDENCE

Is the Central Thought With Old Warrior—Believed the American Authorities Will Have Much Trouble With the General—Will Be Commander-in-Chief in a Few Days.

Havana, April 7.—The Cuban military assembly being dead, General Maximo Gomez will take up his programme of solidifying the Cuban people into a party that shall, without ceasing, urge the United States to withdraw from the island. His purpose is to make the people seem to have but one emotion, one desire—the thought of independence and of absolute separation from the United States.

General Gomez considers the dissolution of the assembly as his personal achievement, aided by the military administration here and countenanced at Washington. He believes that he emerges from the controversy with the assembly, stronger than ever with the better classes. His theory is that the Cubans, who before thought him merely an adroit guerrilla chief, are now prepared to regard him as a political leader, and that a few days more probably will see him in name general-in-chief of the army.

The Cuban general, Pedro Diaz, who commands in the province of Pinar del Rio, invited several generals and brigade commanders who are friendly to Gomez to a conference regarding the latter's future course. As many who were invited were some distance away from Havana and could not arrive here in time for the meeting, there were only a few actually present; but the possibility of reinstating Gomez as commander-in-chief was informally discussed, with the result that little or no opposition to the proposal developed. In order to get a more general expression of opinion, it was decided to defer the formal meeting until today. No other candidate is possible, and if any such action is attempted, it will undoubtedly be carried through.

General Gomez, if reinstated, would be of greater service to the United States in the disbursement of the \$3,000,000; but his political programme means the keeping up of agitation and disturbance in the minds of the people, and the weakening of American authority by producing the impression that everything done by the Americans is temporary and may sooner or later be overturned.

American observers consider any such agitation as extremely hurtful to the industrial revival and the restoration of the Cuban credit. Some who are high in authority and who have exceptional opportunities of knowing the character and ideas of Gomez, think the United States government may have trouble with him yet. His attitude has always been consistent regarding independence for Cuba, and he is still working for the same end.

SANTIAGO.

Running Down the Bandits—No Little Excitement.

Santiago de Cuba, April 7.—There are now 22 bandits in the Santiago military prison. Major General Wood, the military governor, is actively suppressing disturbances from this source.

Four bandits from San Luis and two from Guantanamo were brought in yesterday. There is not a little excitement over the operations of the outlaws and rumors are in circulation regarding troubles in the districts of Holguin, but the present efforts of the military authorities will soon assure safety in all parts of the province.

The news of an early mustering out of the volunteer regiments is welcome to officers and men. The water famine is broken and there is a good supply.

FRANCE AND RUSSIA

Not Encouraged In Their Intrigues by Egyptian Rulers.

London, April 7.—The Cairo correspondent of The Daily Mail says: "Emperor Menelik has refused the request of the French government that he should order all exports from Abyssinia to pass through the French port, Ras Jibuti. The Negus also declined to assist Russia in acquiring Raheita from Italy, and declines to allow Russia to reorganize the Abyssinian army with Russian officers, although, in the hope of securing these concessions, Russia sent him valuable presents, including 60,000 rifles, 2,000,000 cartridges and several machine guns."

President Loubet.

Montelimar, France, April 7.—President Loubet has arrived here to spend a few days at his native place, which is gaily decorated, the streets being spanned by triumphal arches. The president was much affected by the enthusiastic welcome accorded him. When the president met his aged mother, who was awaiting him on a platform in front of the town hall, he alighted from his carriage, mounted to the platform and tenderly embraced her. Madame Loubet shed tears of joy.

DR. KELLEY.

Decides Not to Prosecute His Wife For Shooting Him.

Terre Haute, Ind., April 7.—Dr. Joseph D. Kelley, who was shot by Mrs. Kelley at Ehrmandale a month ago, has so far recovered from what was supposed to be a fatal wound as to call at the jail to talk with his wife. The doctor had been very resentful and desired to prosecute her, but since his call at the jail he has said he would prefer to have the charge of shooting with intent to kill dismissed. Prosecuting Attorney Beal will comply with his request.

Pensions Granted.

Washington, April 7.—Pension have been granted to Indians as follows: Restoration and Increase—Arcille Morton (dead), Brazil, \$8 to \$12; Jackson Barnhart, Tiosa, \$4 to \$10. Original Widows, Etc.—Susan Krodol, Porterville, \$12; Annie E. Perigo, Booneville, \$8; Abigail B. Weller, Mount Etna, \$8; Nancy Jane Morgan, Brazil, \$8; Sarah C. Greiner, Vista, \$12. Mexican War Widows—Special, March 28, Manerva A. Gordon, Cambelsburg, \$8.

ANTITRUST LAW

The New Enactment of Arkansas May Disrupt Labor Unions.

Little Rock, April 7.—The new antitrust law, which has caused the withdrawal of foreign insurance companies from the state, continues to be the subject of concern among all classes of people. A new feature of the far-reaching effect of the law is just beginning to be realized. That is the probability that it will destroy all labor organizations in the state.

The law is operative against any combination seeking to control the price of various enumerated commodities or "anything." Labor, being defined as "a thing," all unions, associations, brotherhoods, federations or fraternities for the purpose of mutual protection and the keeping up of a standard of wages, comes under the ban of the antitrust law. The attorney general has already been approached on the subject by a coal operator and he expressed the opinion that the law can be applied to the United Mine workers of America. That organization inaugurated and is maintaining a strike in the coal mines of western Arkansas.

Smokeless Powder Company.

Trenton, N. J., April 7.—Articles of incorporation were filed with the secretary of state yesterday of the International Smokeless Powder and Dynamite company, with an authorized capital of \$10,000,000. The company is formed to manufacture powder and dynamite. Articles were also filed incorporating the Lewis Motor Vehicle company, with an authorized capital of \$5,000,000, for the purpose of producing motor power secured from compressed air and for the operating of vehicles.

Instructed to Call on Choate.

Barnemonth, Eng., April 7.—The town council has passed a resolution instructing the mayor to call officially on United States Ambassador Joseph H. Choate, to welcome him here and to express hope of his speedy restoration to health.

TELEGRAPHIC BREVITIES

General Hastings, who was recently appointed chief of the bureau of American republics may decline the place.

Secretary Hay has been informed that the Haitian government has laid a surtax of 25 per cent on all importations.

The United States transport Arizona has arrived at San Francisco from Manila with wounded and disabled soldiers.

The cottonmills at Taaville, Conn., have been closed down because of a strike among operators for a 10 per cent increase in wages.

The Penn ironworks at Lancaster, Pa., has advanced wages 25 cents per ton for puddling and correspondingly for all skilled labor.

Two negroes, Forest Jamison and Mose Anderson, have been lynched at Brooksville, Miss., for the murder of T. P. Cleland, a stock farmer.

The Railway Age says not less than 5,000 miles of railway will be built in the United States in 1899, representing a capital of \$150,000,000.

Doesn't Think It Wise to Name a Cruiser the Gettysburg.

Harrisburg, April 7.—In a letter which Governor Stone yesterday wrote to W. S. Greenoble of Gettysburg, declining to sign a petition addressed to the secretary of the navy, urging that one of the new cruisers be named the Gettysburg, the executive said:

"If naming a cruiser Gettysburg would alone honor and distinguish the excellent town of that name, I would not hesitate to join with you in this request; but to the whole country and to the civilized world that name typifies a great battle which settled a controversy between the north and south of our country. To both sections it recalls a great heroic struggle. The victory was with the north; the defeat with the south."

"In the recent war with Spain the north and the south were blended as one in defense of our flag. Our battleships and cruisers are manned by sailors and marines from both the north and south, and I do not think it wise that a name should be selected for any of our vessels which will revive the unpleasantness which grew out of the civil war and existed for so many years. Let Gettysburg be honored and revered as the site of a great battle, wherein the survivors of the northern army and the survivors of the southern army can alike uphold the valor of their comrades. I am not in favor of giving any vessel in our navy a name which will distinguish a battle fought by Americans against Americans."

BOLD BANK ROBBERS

Capture a Town Marshal and Lock Him Up—Secured No Booty.

Wellsville, Mo., April 7.—Four men tried unsuccessfully to rob the bank here last night. Conrad Mentz, the town night watchman, was at the depot waiting for a train when he was accosted by a man, claiming to be a tramp, who wanted to sleep in the calaboose. Mentz agreed to accommodate him, but when they reached the door of the "cooler" three other men seized, bound and gagged the night watchman and locked him in. After leaving the calaboose the four men met Samuel Knipfel, a citizen, whom they beat into insensibility. They then went to the bank, where they broke into the vault, but they were unable to open the safe and secured, therefore, nothing. They left no clue as to their identity.

An Ohio Bank This Time.

Wapakonetta, O., April 7.—Five men made a desperate though unsuccessful attempt to rob the Sheets bank at Pukins, a small town near here. There was \$10,000 in the inner safe, but the robbers did not get it. The citizens of the town were startled by hearing two explosions. An investigation revealed five men in an effort to force the vault of the Sheets bank. The men had stolen tools from a blacksmith shop, also a team and carriage from a livery. When discovered the robbers were at work on the bank vault.

SPANISH PRISONERS

Rios Says It Is Hopeless to Expect Their Release During the War.

Madrid, April 7.—General Rios, Spain's chief commander in the Philippines, cables that it is hopeless to expect the liberation of the Spanish prisoners while the war between the Americans and the Tagalos continues.

It is hoped here that when diplomatic relations are resumed between Madrid and Washington, on the ratification of the peace treaty, the question of the prisoners in the hands of the Filipinos will at once assume a more favorable phase.

STABBED TO DEATH

In the View of Twenty Policemen and Numerous Shoppers.

Macon, Ga., April 7.—Gus Tidwell, a butcher, was stabbed to death here yesterday by Charles Burge, a plumber. The crime was committed in full view of 20 policemen, numerous shopper and citizens, and created the greatest excitement. The murder was done at the entrance of the city hall, where the victim and slayer met, both having been summoned to the police court for fighting about the murderer's sister, the same motive that actuated the fatal assault.

\$200,000,000 Syndicate.

Chicago, April 7.—The Chronicle says today that a syndicate with \$200,000,000 backing, composed of New York, Philadelphia and Chicago men, identified with metropolitan traction of New York, Philadelphia and other cities, has been formed, and is now negotiating for the purchase and consolidation of all the Chicago traction companies, surface and elevated, with good prospects of a successful conclusion.

Editor Assailed.

Emporia, Kan., April 7.—Sol L. Seyev, defeated candidate for mayor on the citizens' ticket, yesterday assaulted William A. White, editor of The Gazette, knocking him down twice with a cane. Editor White in his paper assailed Seyev for running on the citizens' ticket after being defeated for nomination in the Republican convention. White was cut on the forehead and hand. William A. White is a well known author and

KODAK OPERATOR

Killed Almost Instantly While Taking a Picture of a Stamp.

Phillipsburg, Pa., April 7.—Samuel M. Graham, well known throughout central Pennsylvania, was instantly killed near this place yesterday while attempting to get a kodak picture of a large stamp which was being blown out of the ground with dynamite, a silver striking him on the neck and nearly cutting his head from the body. He was a member of the firm of Graham, Herd & Co.

Dreyfus Case.

Paris, April 7.—The Voltaire, which published an installment of the evidence given before the court of cassation by M. Palotogne, one of the permanent officials of the foreign office, regarding the reparation by the Italian government, and by Colonel Schwartkoppen, former German military attache here, of relations with Dreyfus, yesterday published a further installment showing that the so-called secret dossier is not connected with Dreyfus, except as regards a single document, a letter mentioning him, which is dated after his condemnation, and is therefore unimportant.

Mail Burned.

Mexico City, April 7.—The United States mail, due to arrive here Wednesday over the Mexican National railway, was burned on Monday near Saltillo by the explosion of a lamp. The mail destroyed comprised letters posted at New York on March 31 and at Chicago on April 1. The English mail was also destroyed, only two sacks of newspapers arriving here.

The Three Emperors.

Berlin, April 7.—A special dispatch from Troppaus, capital of Austrian Silesia, says there is a probability that the three emperors will meet in the autumn at Skiertwice, a town of Poland, 42 miles from Warsaw.

Jumped Down a Shaft.

Wilkesbarre, Pa., April 7.—Terrence Anderson of Plymouth, who was demented, committed suicide yesterday by jumping down an 800-foot shaft of the Delaware and Hudson mine.

FRIDAY, APRIL 17, 1899.

There will be a grand jury investigation of democratic election methods at Evansville which promises some rather remarkable revelations.

JERRY SIMPSON does not propose to be lost sight of from the public. Since his defeat for congress he has decided to go into the newspaper business.

In Beattie, Kansas, the mayor and all the councilmen save one are women. This one lone man will have little opportunity to talk at council meetings.

The large amount of cement sidewalk in Seymour will be to our advantage when a post office inspector comes to investigate our facilities for free mail delivery.

The election of Boss Crocker's candidate in Chicago and the republican victory in Lincoln, Nebraska, Bryan's own town, is not very encouraging to the Colonel in command of the repudiated Chicago platform.

DR. BULL'S COUGH SYRUP is the best remedy for relieving and curing that asthmatic cough. Physicians recommend it. Buy only the genuine, Dr. John W. Bull's Cough Syrup.

Does Coffee Agree With You? If you drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young, 15c and 25c.

Newspapers and Newspaper Men.

The Southern Indiana Press Association has held meetings at a considerable number of the southern towns in the state, at Seymour, Bedford, Washington, Madison, New Albany, Evansville, Columbus, Vincennes and last again at Seymour. In all these places the newspaper men were prominent in assisting to do the honors and were unlimited in their courtesies to their visiting brethren, all of which the Tribune made mention on the occasion of each visit.

But we do not feel as if we have yet made sufficient acknowledgement of the hospitable attention of the members of the press at Seymour. The three newspapers offices were visited and all the visitors were royally greeted. Smith and Remy, of the Republican, Mr. C. S. Mercer, of the Democrat and Mr. Burkart, of the News, are all live and enterprising newspaper men and give the people every day and every week, papers eminently worthy of their support. It was a matter of surprise to the writer as no doubt it was to all the rest to find the offices so well and handsomely equipped. The indications of large prosperity were abundant and gratifying, which must be taken also as a large credit mark for the people of Seymour and Jackson county. The Tribune takes this occasion to congratulate the gentlemanly publishers on the success which has attended their work.—General Jasper Packard in the New Albany Tribune.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Cough and Colds. I gave it a trial, took in all eight bottles of it has cured me, and Thank God I am saved and now a well and healthy woman." Trial bottles free at W. F. Peters Drug Store. Potato Merchant Released.

Isaac Rosson who was placed in jail for refusing to pay fine assessed against him for violating ordinance regulating peddling, was released this morning. H. C. Byers staying his fine.

For some reason, unknown to the REPUBLICAN a few parties have criticised the city officers for enforcing the provisions of the ordinance in the case of this potato peddler, which it is their duty to do. Mr. Byers, who stayed the fine, was rather harsh in his criticism at first. What interest Mr. Byers had we do not know, but if he had any interest in the car-load of potatoes he should have had them shipped to him, for he pays \$25 a year for peddling privileges and would not have violated any city ordinance had he been known as the owner of the potatoes. No fault should be found with an officer for enforcing the law.

CITY SOLONS.

Business Disposed of With More Swiftly Than Usual.

City council met in regular bi-monthly session last night, DeGolyer absent. Clerk Jennings read minutes of both regular and special meeting which were approved.

Bartlett, chairman of improvement committee reported that the bids for removing the garbage and slops from the city for the season had been examined and the proposition of Peter Largent was considered the best and that they recommend its acceptance, which report was concurred in and Mr. Largent agrees to remove slops and garbage for \$35 per month.

The treasurer's report for March was read:

Treasurer called attention to the condition of the general fund and added that taxes were coming in slowly.

Engineer Slagel reported that Ewing Shields had completed the sewer from the catch basin on Branch street to corporation line according to contract. Report concurred in.

The matter of disposing of the surplus dirt from the sewer was left to the discretion of the contractor, Ewing Shields.

The street commissioner reported that he had completed the grading at the cemetery and had disposed of 143 fence posts at 10 cents each.

Objections to proposed sidewalk improvement according to advertisements were called for but none were offered. Most of the work had been contracted for by the property owners notices of which had been filed with the clerk.

There was only one bid for the sidewalk improvement on both sides of Laurel street from Walnut to Carter street, that of Eugene Weathers, at 10 cents per square foot. This bid together with all the notices of private contracts was referred to improvement committee with instructions.

The special committee appointed to investigate the cost of electric light plants in other cities, made a report, the same being read by Councilman Gimson. The report gave some specific information gathered in the different cities visited. Most of the plants owned by the municipalities impressed the committee favorably. The report showed that the cost of light in different cities varied materially, much more than apparent conditions would indicate. The information gathered can be of decided benefit to the council in further dealing with the question of electric lighting. The report was received and filed.

A communication from James B. Nelson, an electrical engineer of Indianapolis, was read. He would like to do the expert work for the city if a new plant is put in.

The special committee was directed to formulate some definite plan of action on the light question and report same to council for consideration.

Mrs. Pinkham's Medicine Made a New Woman of Mrs. Kuhn.

[LETTER TO MRS. PINKHAM NO. 64,492]
"DEAR MRS. PINKHAM—I think it is my duty to write to you expressing my sincere gratitude for the wonderful relief I have experienced by the use of Lydia E. Pinkham's Vegetable Compound. I tried different doctors, also different kinds of medicine. I would feel better at times, then would be as bad as ever.
"For eight years I was a great sufferer. I had falling of the womb and was in such misery at my monthly periods I could not work but a little before I would have to lie down. Your medicine has made a new woman of me. I can now work all day and not get tired. I thank you for what you have done for me. I shall always praise your medicine to all suffering women."
—MRS. E. E. KUHN, GERMANTOWN, OHIO.

"I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound and used two packages of your Sanative Wash, also some of the Liver Pills, and I can say that your remedies will do all that you claim for them. Before taking your remedies I was very bad with womb trouble, was nervous, had no ambition, could not sleep, and my food seemed to do me no good. Now I am well, and your medicine has cured me. I will gladly recommend your medicine to every one wherever I go."

The quarterly bill of the electric light company for \$1,140 was referred to the light committee.

The clerk was directed to issue notices to property owners who have left brush and other rubbish in the streets to have same removed at once.

W. F. Pfaffenberger et al reported that the north end of the three story brick building occupied by John Lauster and others had been repaired and made safe. The report incidentally stated that gambling in the saloons, especially on Sundays was more "dangerous" than brick walls.

As to the safety of this same building a special committee appointed to examine it reported that in their opinion it was unsafe. Referred back to make further examination.

The improvement committee was directed to have room in city building renovated and put in a suitable condition for the judge and city marshal.

The alley back of the Gold Mine from Second street to St. Louis avenue was reported to be in a bad condition. Referred to grade committee.

After a few minor matters were given attention council adjourned at 9:35.

President Harper, of the University of Chicago, makes this month's contribution to the discussion of the educational question which The Cosmopolitan magazine has been conducting during the past two years. The Cosmopolitan's title, "Modern College Education—Does it Educate in the Broadest and Most Liberal Sense of the Term?" is not used as President Harper's theme. He confines himself rather to the consideration of the relations which universities bear to our republic and to the people. President Harper is one of the men who seem to desire to take broad and liberal views of the subject of education.

The recent critical illness of the Pope lends particular interest to a personal article on Leo XIII by F. Marion Crawford, the famous novelist, and author of "Ave Roma." This article, which is published in the Magazine Number of the Outlook for April, gives the best possible impression of Leo that has appeared in any American periodical. Mr. Crawford enjoys the advantage of knowing the Pope well; and he writes sympathetically, and at the same time with keen analysis. (\$3 a year. The Outlook Company, New York.)

THE BALKY HORSE.

A Simple Scheme of the Motorman That Made Him Go.

People near the New York entrance of the bridge saw a balky horse frustrated with delightful ease the other day by a man who openly confessed that he had no practical or theoretical knowledge of horsemanship. He was the motorman of a Fourth avenue car bound toward the terminal at the bridge. The horse was one of those angular, cockeyed, ungainly beasts that no amount of currying and feeding could make respectable.

It had stopped square in the middle of the track and had spread its feet apart as though its mind was made up to hold the street against the world. In a few minutes four trolley cars were backed up behind the cart and more were in sight down Center street. Motormen, conductors, truck drivers, assorted citizens and a policeman stood around and gave the usual advice. The driver kicked the horse and two or three men called to the policeman to stop him. Then they in turn made humane suggestions about starting a fire under the beast's stomach. A woman said that it would be easy enough for any one to coax him along with a lump of sugar.

The motorman of the fifth trolley car, which had by this time reached the end of the blocked line, walked up and surveyed the situation.

"Whose car is this?" he asked, pointing to the first car that had come up behind the wagon to which the balky horse was attached.

"It's mine," said another motorman, who was fingering a brass motor handle as though he would like to brain the horse with it.

The motorman from the rear hoisted the car's front fender and strapped it in place, folded against the dashboard. "Now," he said to the motorman who had claimed the car, "go ahead, very easy." Then, turning to the disconsolately profane driver of the horse, he said, "Get up and take hold of the reins."

The car ran forward until the fender reached the tailboard of the wagon. "Now," said the self appointed master of ceremonies to his fellow motorman, "start up as fast as you darn please, and don't stop until you get to the bridge."

The horse started. The wagon started. The horse in the shafts simply had to start. He slid and shoved back for a few inches and then broke into a helpless gallop. The car came banging along behind, giving the horse no chance to change his mind and balk again. The spectators cheered. The ingenious motorman looked the assembly over with a sneer.

"Say!" he said. "Say! Some people are dead slow, eh?"—New York Sun.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. To test it, a trial size for 10 cents or the large, for 50 cents, is mailed by Ely Brothers, 56 Warren Street, New York. Druggists keep it. A remedy for Nasal Catarrh which is drying or exciting to the diseased membrane should not be used. Cream Balm is recognized as a specific.

About Spring Medicine.

The habit of taking spring medicine is a result of two causes. One is that the change from cold weather to warm has a depressing effect on the nervous system. The activity inspired by the cold, changes to lassitude.

Added to this is the fact that we eat more in winter than in summer, yet we exercise less. The digestion becomes affected and the over-worked liver becomes clogged.

Try Dr. Shoop's Restorative this spring and not how different its effects are from blood medicines. Note how much better it makes you, and how lasting its results are. How it revives the nervous system—the chief cause of spring languor. It will prove to you the difference between right treatment and wrong treatment in a manner which will never be forgotten.

When you have occasion to consult your physician bring the prescription to us and we will have the most careful attention. Medicine delivered if you wish it.

COMMITTEE'S OBSERVATIONS.

Electric Lighting Information
Gathered from Other Cities.

The special committee composed of councilmen Bartlett, DeGolyer and Gibson, made a report to the council last night of their observations made of electric light plants in other Indiana cities. We give below an abridgement of their written report.

At Greensburg they found the plant owned by a company. Capacity of plant 120 arc lights, but city using only 75 lights, paying \$75 a light moon calendar. Natural gas is used there for fuel.

At Shelbyville the plant is owned by a corporation. The cost of running the plant could not be ascertained. The city used 64 arc lights and 50 series lights, 100 candle power. Incandescent lights 75 cents for all night. Commercial arc lights \$10 per month. Water and light plants in same building.

The city owns the plant at Rushville. Consumers pay \$60 a year for arc lights. Incandescent lights, 16 candle power 50 cents a month. Meter rates three-fourths of one cent per hour. The fuel cost averaged about \$330 per month.

New Castle owns her own plant, also water works run in conjunction. Use gas for fuel. City uses 60 arc lights. Cost of running the lights was \$17 each for 1898. Incandescent lights, 16 candle power, cost consumers from 45 cents to 20 cents a month according to number used.

At Anderson water and light plants are in conjunction so could not get accurate figures. Commercial arc lights, of which there are 75 used in the city, cost consumers \$4.50 a month. Gas used for fuel. City owns both light and water plants. Arc lights cost city about \$41.50 each per year. Incandescent lights 25 cents per month.

At Marion the city only does the street lighting. Have 130 arc lights at \$41.50 each. Having natural gas fuel only one man is required at the plant during the day and one at night. Estimated cost of plant \$24,000. The incandescent plant owned by a company. Charges 25 cents each for 16 candle power lights. Lower rates to large consumers.

Logansport has largest plant visited. Arc lights cost city about \$45 each per year. Incandescent lights 35 cents a month. Meter rates, nine-tenths of a cent per hour.

A stock company owns the plant at Alexandria. Arc lights cost city \$65 each per year. Incandescent lights all the time, 50 cents a month. Special rates given to large consumers.

Columbus owns plant which is run in conjunction with the water works. The city only lights the streets which costs about \$35 per light. Light unsatisfactory. The commercial plant is owned by a company and was the shabbiest seen on the trip. Prices not given but vary. John S. Crump owns the best plant in the city.

The committee also visited Cambridge City and Summerville and found conditions about the same as in other cities visited. The municipal plants were generally giving good satisfaction.

The life of a dynamo in the opinion of those questioned, is from 15 to 25 years and even longer, if properly handled.

The report is an exhaustive one and does credit to the committee.

WHEN TRAVELING.

Beats Mary's Lamb.

Scott county tries to become renowned by furnishing a lamb that beats Mary's all hollow. This lamb has two complete bodies, eight legs, two tails, one head, two eyes and three ears. For fear they might not secure the eye of the speaker, the Scott county friends claim a blackberry briar twenty-five feet in length. This helps to cast doubt on the lamb story for briar rhymes with liar too easy.—Mitchell Commercial.

Wedding Anniversary.

Yesterday was the twelfth anniversary of the marriage of Mr. and Mrs. J. G. Laupus. In honor of the event Mrs. Laupus invited the Marguerite Thimble Club to spend the evening at her home. The occasion was an extremely pleasant one to all. The club presented Mrs. Laupus with a beautiful medallion. Refreshments were served.

Attempted Suicide.

A special from Scottsburg says that Thaddeus Lawell attempted suicide there Wednesday, by swallowing both morphine and opium. Heroic action on the part of physicians saved his life. Depondency is given as the cause. Lawell was in Seymour the first of the week.

Bearing Orange Tree.

Jno. S. Crump has in his show window at his safe deposit office on Third street an orange tree with sixteen oranges on its limbs. The tree is five years old and was raised by Mrs. White-sides of Franklin. The oranges, while a little under size, are of the sweet variety and are perfect in every way.—Columbus Republican.

DR. BULL'S COUGH SYRUP can be relied on. If you suffer from coughs, colds, hoarseness, bronchitis or other throat and lung affections, this old reliable remedy will cure you.

Mr. Saltmarsh Not Indicted.

The report which has been going the rounds of the press to the effect that C. A. Saltmarsh, of Seymour, Ind., had been indicted by the grand jury for effecting insurance in unauthorized companies, does that gentleman an injustice. Mr. Saltmarsh writes "Rough Notes" as follows: "I never wrote a policy in the London Fire office. I have not been indicted by the grand jury. I have never acted as agent for any insurance company not authorized to write business in Indiana. I am a member of the Local Board of Seymour, and represent only Board companies." Mr. Saltmarsh has been engaged in the insurance business for many years and represents a list of strong companies.—Rough Notes.
